

Experiencing New Vision  
The Amazement of What God Has Done  
Psalm 34:1-10

How many times in life do we get aggravated with our circumstances and just catch a ride on the aggravation train? Not only do we catch a ride, but we let those around us know we are on it. We all must admit that when we are in this psychological place that it is not good for us or for others.

Many times I ask myself, "Why do I do this when it does me absolutely no good?" I believe that it comes down to one basic principle; the principle that we have lost the amazement of what God has done.

If we can learn to keep the amazement for God in front of us, we will truly experience new vision.
